orty of the Virginia Passenger and Power Company, and lawyers were on hand, representing both the city and the company. City Attorney H. R. Pollard was Mayor McCarthy; while the interests of the company were looked after by Ma-jor M. M. Martin and Mr. Henry A. Anfor M. M. Martin and Mr. Henry A. Anderson. The company made a hard fight to escape taxation on both the property of the Richmond Traction Company and the Richmond Passenger and Power Company, but Mr. Pollard was equally vigorous in his efforts to protect the interests of the city. The companies, through their counsel, sought to have the taxes towered on the real property of both the organizations mentioned, and when the question of holding stock came up, they contended that ten cars being run over contended that ten cars boing run over their lines belonged to some other corporation and were therefore immune from taxation. The city attorney produced a copy of the charter showing that the companies have no right to operate foreign cars over their lines without the consent of the city.

The fight was a spirited one, though the commission rendered no decision, having pursued the usual policy of taking the subject under advisement.
